

10 Companies That Expanded With the Help of Oklahoma's

Quality Jobs Program

Oklahoma looks at business expansion and growth the same way most companies do – confidently taking advantage of opportunities and rapidly generating solutions in a creative and resourceful manner. From new entrepreneurs growing small businesses to large corporations looking to broaden capacity, this win-win approach keeps Oklahoma at the forefront of economic development.

The Oklahoma Quality Jobs Program offers qualifying companies that wish to expand a quarterly cash rebate of up to 5 percent of newly created payroll. Companies already in the program that expand with higher wage jobs can receive up to a 6 percent rebate.
